The DLSI Group announces the acquisition of ML Intérim and PRESTIM

The DLSI Group is continuing its national expansion with the acquisition of temporary employment agencies ML Intérim and PRESTIM. These companies were founded in 1994 and 2007 respectively and operate 3 branches in Colmar (Haut-Rhin, 68), Saint-Avold and Sarreguemines (Moselle, 57).

For the year ended December 31, 2023, the two companies, whose business is growing thanks to the post-Covid environment, generated sales of around €19 million, mainly in industry (over 70% of sales), logistics (17%) and medical (10%).
Operating profitability in 2021 and 2022 will be between 8% and 9% of sales, and is expected to reach comparable levels by December 31, 2023.

These acquisitions offer an attractive opportunity in terms of geographical presence, strengthening the Group's network in the eastern part of France, and diversifying its customer base and business lines.

ML Intérim and PRESTIM thus consolidate the positioning of the DLSI brand in the region, and confirm the Group's ambitions to become a major player in temporary employment and recruitment in the Grand Est market.

We are continuing to study development opportunities in France and abroad.

- Upcoming:
Publication of 4th quarter sales, 16 February, 2024 (after market close)

About DLSI:
The DLSI Group represents a network of over 70 agencies located throughout France, in Luxembourg, Germany and in Switzerland.
With a foothold in all industries, we offer all employment solutions, from indefinite-term contracts to fixed-term contracts and temporary employment.
